LEFA LAZY MALATJI

SOFTWARE DEVELOPER

Johannesburg, South Africa | +27 69 729 4309 | lazylefa@gmail.com

Portfolio | GitHub | LinkedIn

Professional profile

Software developer with one year of internship experience developing and maintaining web applications and PostgreSQL databases. Builds projects using C#, ASP.NET Core and PHP, with practical knowledge of REST APIs, relational database design and Entity Framework migrations. BSc Honours Computer Science graduate and current lecturer, bringing clear technical communication and a structured approach to problem-solving.

Professional experience

Software Developer Intern | Simplifon

One-year internship

- Developed and maintained web-based applications.
- Developed and managed PostgreSQL databases supporting web applications.

Lecturer | Rosebank College

Current position

- Teach C#, object-oriented programming, HTML/CSS, ASP.NET MVC and SQL through practical coding activities.
- Review student implementations and provide technical feedback on code, database concepts and problem-solving.

Academic Tutor | University of Limpopo

Three years

- Supported practical learning in Advanced Databases, Web Development and Programming Logic and Design.

Selected development projects

Project	Implementation and contribution
Store Hub	PHP | PostgreSQL Built a multi-role e-commerce platform with product search, personalisation, business intelligence reports and a session-aware support chatbot. Source code
HelpDeskHub	C# | ASP.NET Core | PostgreSQL | Entity Framework Developing a help desk application with ticket APIs, user identity and a relational data layer. In progress.
School website	HTML | CSS | JavaScript Built a responsive school website with 160 English/Sepedi activities for Grades R–7, grade and subject filters, and downloadable worksheets and answers. Live website

Education

BSc Honours in Computer Science | University of Limpopo

2025

BSc in Mathematical Sciences | University of Limpopo

2021–2024 | Majors: Computer Science and Statistics

MSc in Computer Science | University of Limpopo

2026–present | In progress

Research: data-scarcity effects in Sepedi-English text generation using FNet, LSTM and mBERT.

Technical skills

Application development: C#, ASP.NET Core Web API, MVC, PHP and JavaScript.

Web interfaces: HTML5, CSS3 and Bootstrap 5; responsive layouts and browser-based interactions.

Databases: PostgreSQL, Microsoft SQL Server, MySQL and SQL; data modelling, relational schema design and normalisation.

APIs and data access: REST APIs, Swagger, Entity Framework and database migrations.

Tools and practices: Git, GitHub, GitHub Actions, Docker and Agile development.

Additional skills: Python, TensorFlow/Keras, text preprocessing, statistical analysis and interpretation of experimental results.

Additional project

Professional portfolio and browser-based guide

Built and deployed a personal portfolio with a browser-based guide, factual project responses, contact options and automated deployment through GitHub Actions.
